SMALL CONSISTENT ACTIONS | INSPIRING HOPE

Program For Students

Thanks to an educator, Sam was taught a lesson that helped him build resiliency, reinvent his identity, and ultimately change how he viewed the world. Now, through this keynote, Sam shares this idea with an abundance of belly laughs, happy tears and breakthrough moments.

Small, Consistent Actions are not only about changing the world at large but realizing that our smallest interactions have positive effects on those around us. Along with encouraging students to work on meaningful projects, Sam uses this session to encourage empathy, kindness, and servant leadership.

ONE TEACHER AWAY

Program For Educators

Your actions matter. You're making a huge impact. Your role in education is similar to a gardener. You plant seeds, water them and often don't see them grow. Sometimes it takes 15 years before a student reaches out to tell you how much of an impact you had on them.

Sam's teacher, Michael Loudfoot, changed his life. He believed in Sam when Sam stopped believing in himself. You have the same opportunity with the students in your classroom. Through this keynote, Sam shares what Mr. Loudfoot did that made him buy into his lessons and leadership. You and your colleagues will leave this session remembering why you started teaching years ago...

***Every Sam Demma program inspires hope, encourages kindness, servant leadership and self-actualization.*

Program Outcomes:
